ancoor-portfolio.netlify.app/

Experienced Web Developer proficient in Node, Express, and PHP with 3+ years of expertise in building and maintaining functional, responsive, and visually appealing websites. Skilled in enhancing user experience using Tailwind CSS and React

WORK EXPERIENCE

Technical Analyst Infosys Ltd.

02/2023 - Present

Achievements/Tasks

- Developing Restful APIs with Node.js in a scalable Agile/SCRUM and microservices-based environment.
- Developing unit test cases with Mocha, Chai, Nightwatch, and Cucumber and creating automated test cases.

Software Developer Collabera Technologies

11/2021 - 02/2023

Infosys Client

Achievements/Tasks

- Developed automated unit test cases and implemented a microservices-based architecture in Node.js to deliver efficient RestFul APIs.

Freelancing Anbias Technologies

08/2020 - 11/2021

Achievements/Tasks

- I efficiently created highly responsive websites tailored to meet clients' needs while working with limited resources and tight deadlines. I ensure optimal website performance by compressing media files and minimizing code to significantly reduce loading times.

Frontend / Backend Developer Crescive Solutions

08/2018 - 08/2020

Achievements/Tasks

- Enhanced overall database performance by implementing effective conceptual and logical designs, optimizing queries, and bolstering security measures to prevent unauthorized bot entries.

EDUCATION

B.E in Computer Science CSVТУ

2014 - 2018

7.60 CPI

Projects

- 2hSource : Developed second hand book selling platform using PHP and MySQL Database.
- Quiz game: In Android using Android Studio (Java).

SKILLS

JavaScript

ReactJs

Node

MongoDB

CSS

MySQL

PHP

CodeIgniter

PERSONAL PROJECTS
